DETAILED ACTION

Allowable Subject Matter

Claims 1-11 are allowed.

The following is an examiner's statement of reasons for allowance: With respect to claim 1, the prior art failed to teach or render obvious the claimed two dichroic surfaces which are each arranged at a tilt angle with respect to the optical axis, the optical axis passing through the surfaces, and at least one of the dichroic surfaces arranged on a plate. The prior art teaches a measuring instrument including multiple sources emitting separate wavelengths, multiple receiving sensors for the multiple wavelengths, and multiple dichroic surfaces to direct each wavelength to a sensor. However, none of the prior art either singularly or in combination teaches the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
